Forgot Norton Password

If you forgot your Norton password, don’t worry! You can easily reset it by following these steps. And if you need personal help at any time, feel free to call our toll-free support line: +1 844 602=2796.

Step 1: Go to the Norton Sign-In Page

Open the Norton sign-in page in your browser. If you need guidance, you can call +1 844 602=2796.

Step 2: Click “Forgot Password?”

Under the login box, click “Forgot Password?”. If you’re unsure what to click, our team is ready to help at +1 844 602=2796.

Step 3: Enter Your Email Address

Type the email associated with your Norton account and submit. For assistance with your email or account, dial +1 844 602=2796.

Step 4: Check Your Email for a Reset Link

Look for an email from Norton with the password reset link. If you don’t see it, check your spam/junk folder. Need help checking your email? Call +1 844 602=2796.

Step 5: Create a New Password

Click the link and create a strong, new password. If you want guidance on choosing a secure password, our support team is happy to help at +1 844 602=2796.

Step 6: Sign In With Your New Password

Return to the Norton login page and sign in with your new password. If you encounter any issues signing in, call +1 844 602=2796 immediately for assistance.

💡 Tips & Reminders

Use a mix of letters, numbers, and symbols for your new password.

Always remember the email you used to set up Norton.

If you ever have trouble resetting your password, our 24/7 toll-free support is available at +1 844 602=2796.
